Greenbank Pumps & Irrigation

•Irrigation • Pumps •Tanks

OUR VISION

To be renowned as the first choice when it comes to the supply and installation of Irrigation, Control Systems, Pumps, Filters, and Tanks.

OUR MISSION

To provide Water and Energy Efficient Solutions using premium products available, backed with supplier confidence and customer support you deserve. We take pride in our attention to detail and high quality workmanship, whether the job big or small.

OUR VALUES

Transparent, Adaptable, Focused, Honest and Integrity – We Strive to be upfront and honest, we listen to our customers to ensure what we deliver, is what you expected.

OUR STORY

Established in July 2000, Greenbank Pumps and Irrigation began its humble beginnings in the back yards of southern Brisbane. As the company grew, so did the area in which it covered, and the diversity of what it could do. From an irrigation system in the back yard, to a resort on the Hayman Island, no job was too big or too small. A large percentage of our customers are referral business due to our quality of workmanship and our commitment to customer service.

Acquiring Brisbane Irrigation Systems in 2020, we expanded back into the commercial and industrial sectors.

OUR PEOPLE

Our team of seasoned professionals has decades of experience in delivering quality projects. In addition to that experience, we continuously re-invest in ongoing skills training. This ensures that we are at the top of our game at all times.

Our team of 12 include:

OUR SERVICES

- Irrigation Systems - Domestic, Commercial, and Industrial
- Water Filtration systems
- Pumps – Domestic, Commercial, and Industrial
- Electrofusion Welding
- Water Storage Options
- Flow Testing, System Audits and Reports
- Control Panels

OUR EQUIPMENT

At Brisbane Irrigation Systems, we operate our own fleet of trenching and civil machines. This enables us to maintain control on each project and reach agreed milestones within agreed timeframes. Our fleet includes:

- Chain Trenchers
- Bobcats
- Mini skid steers (Dingo)
- Posi-tracks
- Excavators
- Butt-welding machines
- Underground cable locators
- GPS surveying equipment
- Horizontal boring machine
- Vibra Ploughs x 2 (small & large)

Owning our own fleet also enables to control costs and maintain a high-quality standard of works.

OUR PROJECTS

Our recent projects of note include - ASMTI Irrigation Field – Military base, Shoalwater, the Sleeman complex for Stadiums QLD, Ipswich Boys Grammar School 7 playing fields (Booval), Central control system upgrade at Miles Golf Course and Helensvale Golf Course, Stormwater and sewage pump stations at Westfield Coomera, Victoria Park Putt Putt (Central Radio control system). We have also completed numerous childcare centres, 7 Elevens and Bunnings complexes.

Other projects include, but not limited to - refurbishment of Hayman Island Resort's irrigation system, Sea Side City Development, Kingscliff NSW, Spinnaker Shores Stages 1, 2, 3 and 4. Main irrigation contractor for Mirvac Housing Estates (Waterline Bulimba, Park Hill Estate, Ormiston Springs), DB Schenker, Fedex, Hope Island Golf Course, Sandy Gallop Golf Course, Mansfield State High, The Gap State School, Eagle Junction State School, The Springfield Anglican College, Brookwater Estate for Springfield Land Development Corporation.
